Art Unit: 1626

The request filed on April 2, 2001 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 08/945,667 is acceptable and a CPA has been established. An action on the CPA follows.

Claims 57 to 92 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 9.

Claim 30 is rejected under 35 USC 112, second paragraph, for failing to properly define the invention. The expressions "compound which comprises" and "other difunctional acid linking moiety" renders the claim indefinite by placing no definite limits or boundaries on the claims. The uses of "comprises" is not permitted in the claiming of compounds.

Claims 27, 29, 30, 36 to 38, 56, and 93 to 95 are rejected under 35 U.S.C. 103(a) as being unpatentable over European Patent No. 0,161,114, of record.

The reference discloses compounds which are homologs, isomers or close structural analogs of the claimed compound as please note for example, Example 1, page 4, Figures 1 to 6 and Table 5 of the reference. The claimed compounds are so clearly related structurally to the claimed compounds as to be structurally obvious there from in the absence of any unobvious or unexpected properties, especially since one of ordinary skill in the art would expect that compounds so closely related would have the same or essentially the same properties and would be led to make all such compounds closely related structurally with the expectation that such compounds would have the same or essentially the same properties. ^{No}~~was~~ showing of any

unobvious or unexpected properties has as of yet been forthcoming. For a reference to be a good reference is that it disclose structurally similar compounds and have a ^{viable}~~reasonable~~ utility thus utility does not have to be the same as that possessed by the claimed compounds. Applicants must show an unexpected or unobvious difference in a ^{property}~~properties~~ not a different property.

No claim is allowed.
